RIFLESCOPES

Elite® 3500

The new Elite 3500 riflescopes don't feature bells and whistles for the sake of advancement. They offer elevated performance for the real world and a tangible commitment to building the sharpest, clearest and brightest optics available today. Fully multi-coated optics combined with Bushnell's exclusive Ultra Wide Band Coating process boost light transmission through the scope to 91percent. This translates to incredible brightness during those final minutes of shooting light when game animals are most active. The patented RainGuard® HD coating offers a permanent barrier that beads water to scatter less light and give a clear view in conditions that would render untreated optics unusable. They are torture-tested to ensure reliability in the heaviest magnums, and are backed by Bushnell's 100% Bulletproof Money-Back Guarantee.

Features & Benefits

- Versatile 3x zoom ratio
- Rugged aluminum one-piece, 1-inch tube construction
- RainGuard HD lens coatings
- Fully multi-coated optics
- Ultra Wide Band lens coatings
- Magnum recoil-proof construction
- 100 percent waterproof and fogproof construction
- Fast-focus eyepiece
