RIFLESCOPES

Elite® 4500

The new Elite 4500 riflescopes further elevate the award-winning Elite series with advancements such as an aluminum/titanium alloy 1-piece tube, shorter overall length and finger adjustable windage and elevation turrets. Fully multi-coated optics combined with Bushnell's exclusive Ultra Wide Band Coating process boost light transmission through the scope to 94 percent to offer incredible brightness during those the first and last minutes of shooting light. The patented RainGuard® HD coating offers a permanent barrier that beads water to scatter less light and give a clear view in conditions that would render untreated optics unusable. They are backed by Bushnell's 100% Bulletproof Money-Back Guarantee.

Features & Benefits

- Powerful 4x zoom ratio
- Rugged aluminum/titanium alloy, one-piece, 1-inch tube construction
- RainGuard HD lens coatings
- Fully multi-coated optics
- Ultra Wide Band lens coatings
- Magnum recoil-proof construction
- 100 percent waterproof and fogproof construction
- Finger-adjustable elevation and windage knobs
- Fast-focus eyepiece
