

Built for expert users who demand the highest degree of precision.

BF1030T

NEW FOR 2018

FORGE™ BINOCULARS

Every detail matters to expert shooters. Bushnell® Forge™ binoculars are built with the most exacting specifications to ensure nothing is missed. Every element in the optical path features the very best coatings Bushnell® has to offer. The brightness, resolution and color produced by Forge™ binoculars are the best in class. It's as simple as that.

INDUSTRY LEADING FEATURES:

EXO BARRIER - Protective coating bonds to exterior lenses, repelling water, oil, dust and debris for clear viewing in even the worst weather.

ULTRA WIDE BAND COATING - Anti-reflection coating for lenses and prism for the absolute brightest images

PC-3® PHASE COATING - Applied to the prisms, it enhances resolution and contrast.
