NEW FOR 2018

FORGE™ SPOTTING SCOPES

Every detail matters to expert shooters. Bushnell® Forge™ spotting scopes are built with the most exacting specifications to ensure nothing is missed. The ED Prime Glass lenses deliver true-to-life color, even in low-light conditions. They're protected by EXO™ Barrier, a permanent coating that repels water, oil, dust and debris.

INDUSTRY LEADING FEATURES:

EXO™ BARRIER - Protective coating bonds to exterior lenses, repelling water, oil, dust and debris for clear viewing in even the worst weather.

ED PRIME GLASS - Designed to deliver true color images, even in low light.

FULLY-MULTI COATED OPTICS - Multiple layers of anti-reflective coating transmits maximum light for clear viewing in low light.
