

# 2019 NEW FIREARMS OVERVIEW

Savage Arms® is one of the world's largest manufacturers of rifles and shotguns dedicated to hunting, competition, defense and having fun at the range. It's a huge year, as we will deliver more than 40 new firearms in many caliber and gauge options. Here's a look at what we have in store.

- 1 It's our 125<sup>th</sup> anniversary! We're celebrating the historic event by offering two limited-edition rifles and a decorated collector's rifle.
- 2 We're expanding and improving our popular XP scoped rifle lines. New models include the 110 Apex XP series, featuring Vortex® scopes, and a pint-sized Rascal Target XP. Plus, the existing AXIS XP series has been upgraded with a new modernized stock.
- 3 Savage's AccuFit™ system lets shooters quickly adjust comb height and length-of-pull. The feature is an integral part of a new long-range rifle, as well as bolt-action turkey shotguns.
- 4 We've added to the lineup of AXIS and AXIS II rifles sold as standard base models so hunters can purchase their optics of choice. All have redesigned stocks with new looks and improved ergonomics.
- 5 Our next-generation MSR 15 and MSR 10 rifle lines continue to expand with new options built for long-range, precision and competition shooting. All deliver accuracy, performance and a full suite of custom upgrades packaged as standard features.
- 6 Stevens 320 Security and Field Grade pump-action shotguns have received major stock upgrades that improve the reliable platform's look and feel.
- 7 There's also a new specialized single-shot turkey gun designed for Federal's .410 HEAVYWEIGHT® TSS turkey loads, as well as a 16-gauge 555 Enhanced over-and-under—the latest in the lineup of sub-gauge options.

This brochure is a brief overview of these exciting introductions. For full product details, prices and high-resolution images of new products shown here, please visit [media.vistaoutdoor.com/presskit](http://media.vistaoutdoor.com/presskit).

## 1 125<sup>TH</sup> ANNIVERSARY RIFLES

In 1894, Arthur Savage entered the world of firearms; a world he would forever change through his commitment to a higher standard in quality. It's the same commitment that lives on today, helping shooters fill backcountry tags, climb leaderboards, and make the most of every range day.

This long-standing commitment is the reason we continue to set new standards in the firearms industry by developing new ways to deliver pure performance such as the AccuTrigger, AccuStock, AccuFit and other innovations.

For 125 years, we've upheld that commitment, insisting that better comes standard in every firearm that bears our name. That's why we're celebrating this 125-year milestone with a heritage seal to honor where we've been and celebrate where we're going.

You will find this seal on special 125th Anniversary guns to be released in 2019. This includes an engraved Model 110 collector's rifle, a limited-edition rimfire rifle and a limited-edition centerfire rifle. We invite you to view and learn more about these celebratory firearms by visiting [savagearms.com](http://savagearms.com).

### 2 AXIS XP

A new ergonomic stock paired with a sporter-contour barrel. Mounted and bore-sighted Weaver® 3-9x40mm scope, button-rifled barrel, thread-in headspacing and floating bolt head. 9 caliber options.
